3D designservice

Using the latest **CAD** software technology, our **experienced 3D design team** will work with you to design and then render your exhibition display stand so you can **view before you buy.**

Ask your dealer for details.

BANNERS

Impact, Display, Durable

Whatever your requirements, there is a banner to fit.

With the widest range to suit all budgets, banners are still one of the most effective ways to promote your business. Most of our banners come complete with a carry bag for safe transportation.

Choosing the right banner

With so many banners to choose from, how do you decide which is the right product for the job? See below or ask your dealer for more information.

1. Consider where and how often your banner will be used – indoors / outdoors, occasionally / every day.

2. Select the correct type of material – e.g. banner vinyl, polyester or textile fabric.

3. How quickly do you need to change and replace graphics? If often, consider a cassette banner option, if not then a roller banner is the ideal solution.

4. What is your budget? Choose from Economy if use is a one-off or short promotion, right up to Premium for when a quality product is required for extended use and travel.

5. Size matters! Banners come in a wide range of heights and widths. Consider the environment and space available, banners should gain the interest of your customer, but not get in their way.

Banner variations explained

ROLLER BANNERS

A roller banner is the most popular, lightweight and easy to use banner system on the market. There is a roller banner for every occasion and any budget to make your message stand out from the crowd.

MODULAR ROLLER BANNERS

Modular roller banners are configurable banners that can be linked to one another to form larger displays, they can also be set at various heights depending on your message or graphic.

CASSETTE BANNERS

If you need to remove and replace your graphic regularly and require a reliable, quality banner, a cassette banner is a suitable cost-effective solution to consider. For a more detailed explanation see page 8.

MINI BANNERS

Our range of mini banners to sit on your desk or for when space is restricted, are ideal for branding, retail, or point of sale.

Your logo here
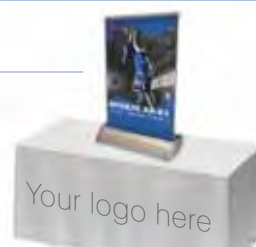

TENSION BANNERS

A popular and cost-effective banner solution, allowing for quick and easy changeover of graphic. Perfect for when you need to update your message frequently.

RIGID BANNERS

Designed to support rigid substrates such as MDF, glass, acrylic or foam board up to 20mm. Ideal for when a more permanent display is required, shapes can also be cut out for greater visual impact.

Cassette
Banners

Imagine+ Cassette Roller Banner is packed with features designed to make it quick and easy to use.

Takes just 30 seconds to change the graphics in an easy to change cassette!

30 seconds to change graphic in an easy to change cassette!

Cassette cartridges

Cassette banners have an advantage as their graphic cartridge is housed independently from the main base unit.

This means you can change your graphic as often as you need simply and easily.

There is no need to return or replace your banner to have new graphics fitted, simply remove and replace the cartridge for an instant graphic change.

Keep a selection of cartridges at hand to change your message as required, which allowing for fast moving promotions.

Fast change cassette, needs no tools. So simple!

Impact, Display, Durable

Stealth Accessories
UB106

Add to your Stealth banner display with a range of stylish accessories to include Shelf, and Literature Holder, LCD bracket plus sturdy case that can be transformed into a counter with graphic wrap.

AC433

Optional case suitable for storing two Stealth units, a flexible joining panel and case graphic wrap.

Folding Tabletop - C0332

Transport case: available options include case wrap and folding tabletop

1
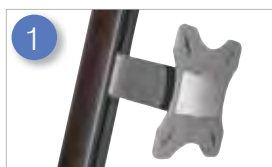

LCD Bracket - UB106-SMK1
LCD bracket is a specific design for use on Stealth - max. screen weight 5kg.

2
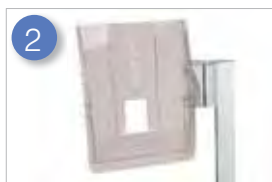

Acrylic Literature Holders - DL LNST-DLP / DL LNST-A5P / DL LNST-A4P Easily fixed to your stand to advertise promotional material.

3

Tabletop – LNST-002
Attach a tabletop to the side of your banner.

4

iPad Holder - IPAD-HU-B/W/S
Available in black, white or silver.
Ideal for placing centrally on graphic panel.
iPad not included

New banner pole

Twist & lock pole

Tensioning system

Stealth improvements.

At the base of each banner pole there is a unique sprung graphic fixing unit that features a tensioning system to ensure your graphics are held taut.

The unit has two sprung sections that work independently for individual tensioning of double-sided graphics.

Each post takes up to two universal LED light fittings to allow single or double-sided lighting. Recommended LED lighting - LED Flood Light and LED Strip Lights (see below images. For more information on LED lighting see page 129.

LED Flood Light

OUTDOOR/INDOOR

Freedom, Impressive, Robust

Our impressive Outdoor / Indoor collection provides a great range of products.

Perfect for outdoor situations such as sporting events, country shows and trade fairs as well as indoor purposes including exhibitions, retail promotions and showrooms.

How to care for your flags

- Consider where you position your flag as air pollution will cause the white areas to become grey and UV can, over time, cause deterioration and fading to the fabric.

- Life expectancy is entirely dependant on the climatic conditions and hours of flying. Realistic maximum lifespan of a flag used regularly is approximately six months. If any edges of the flag become frayed then trim, reinforce and re-hem to extend its life.

- Dismantle your flag during adverse weather conditions, including strong winds. Heavy rain combined with high winds can increase the weight of the flag and put extra strain onto the pole.

- Flags can be washed in a regular washing machine on a 40° wash with everyday detergents. Always allow your flag to completely dry out before storing.

- Ensure that your flag doesn't catch or snag on its pole or any other surrounding objects. Do not place poles too close together.

Street Flag
UF-ZMSTF-01

NEW

- A great way to advertise whilst on the move
- One bag can be used with up to four different flag shapes*

550mm

2940mm (approx.)

Double Mistral

UB725-D

- Mount graphics on lamp posts using both sides of your post
- Brackets can be moved for adjustable graphic height using fabric or vinyl
- Made from weatherproof aluminium castings and GRP tubes

Visible graphic area (approx.):
2000 (h) x 800 (w) mm

800mm   800mm

2010mm
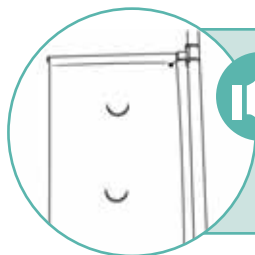

Top tip!

We strongly recommend wind-slits for continuous use in all weather conditions.
Wind-slits de-power banner flags and are a great idea for the Mistral flag range.

Rotating Mistral

UB725-R

- Mounted to posts on an extended arm, allowing the graphic to rotate in the wind
- Brackets can be moved for adjustable graphic height
- Suitable for fabric or vinyl graphics

Visible graphic area (approx.):
1500 (h) x 800 (w) mm

800mm

1500mm

Mistral
UB725

- Display your message from lamp posts
- Brackets can be moved for adjustable graphic height using fabric or vinyl
- Made from weatherproof aluminium castings and GRP tubes

Visible graphic area (approx.):
2000 (h) x 800 (w) mm

N.B.
Strongly recommend wind slits for continuous use in all weather conditions. Slits de-power banner flags.

Bracket can be moved to suit graphic height

SUITABLE FOR RETAIL

49

Rollersigns' **patented** banner cassette retro fits to most retractable belt barrier by way of our patent pending attachment. Modular and reconfigurable, it's an ideal product for high pedestrian areas.

Rollersigns NEW

- Used in many sectors already from travel, retail, education, public leisure facilities, exhibition events to bars and restaurants
- Easy to fit and simple to use
- Pull down the roller banner from the cassette to use
- When not in use retract the banner back again and store the cassette against the side of the barrier
- For indoor or outdoor use
- Comes in two sizes; 1500mm and 1000mm wide
- Two base weights available; 7kg and 17kg

Total hardware dimensions (approx.):
1000 (h) x 2000 (w) x 345 (d) mm
Post 70 (diam) mm
Base 345 (diam) mm

As seen on Dragons' Den, a great cassette banner for pedestrian guidance

Make a great visual impact and stop people in their tracks!

Kwickscreen is a **patented,** highly versatile, retractable partitioning system, which can be adapted to suit most environments and transform any space in an instant.

Kwickscreen NEW

3350mm (wide)

- Once assembled the Kwickscreen is a highly portable, retractable and repositionable banner screen divider system
- Can be wheeled through doorways, into lifts or down ramps without having to be taken apart
- Create different environments in an instant
- Ideal versatile exhibition system
- Use straight or bend to create a corner anywhere along the graphic length
- Primarily used in the Healthcare industry where it is easy to maintain and wipe clean
- Graphics (optional extras) zip on and therefore can be interchangeable
- Screen material can be opaque (white), transparent, frosted or textile.
- Panels can be printed both sides (optional extra)
- Small footprint for easy storage
- 1.9m (approx.) high
- Fix to wall version also available
- For indoor use only

Total hardware dimensions (approx.):
Open: 1905 (h) X 3350 (w) X 512 (d) mm
Retracted: 1905 (h) X 433 (w) X 512 (d) mm

Create different environments in an instant with this compact, retractable divider system

As seen on The James Khan Show, this is a great versatile divider banner. Adaptable for most environments; civic halls, shopping malls airports or schools for example

Partition open spaces to create private areas

Vibrant, visually interesting partitions in seconds

Pop-ups and Hop-ups

Pop-up Monitor/Tablet Bracket
PUSMK 1/2/3

- Add audio visual to your stand
- Supports up to 20" screen
- Can be secured with cam lock and 5mm allen key
- Optional extra iPad holder can be mounted (see page 120)

Pop-up Fabric

- Hard wearing fabric panels
- Use plain or add graphics with hook fastener
- Available for any brand of Pop-up system including Quick+ (See pages 60-61 for more information)
- Ideal big-impact notice board

Pop-up Shelving

- Integrated shelf for curved and straight systems
- 5kg maximum weight

D-end Pop-up Lighting
PS1200

- Illuminate your display with 20w fluorescent lighting for greater display impact
- Lighting can be linked also

Linking Graphic Cases
AC372

- Atlas Cases have a unique linking clip to create larger portable counters if required
- Divider is included to separate graphics from hardware
- See page 125 for full details

Table top and graphic wrap optional extras

Graphic Cases

- The essential accessory to transport Pop-up graphics
- Available in two sizes

1200mm: AC332
900mm: AC333

Stabilising Feet

- Recommended for straight systems or where internal or external load-bearing shelving is used.
- Available for both Hop-ups and Pop-ups
- For all stabilising feet options see page 131

Pop-up: ES505

Hop-up: ES508

Case to Counter Conversion

- Elipse Plus, Atlas and Zeus cases may be converted into counters, with a tabletop and a choice of fabric or PVC wraps
- iPad tabletop option only available for Zeus case (see page 125)

Impact Hop-up

HUI3X2 / HUI3X3 / HUI3X4 / HUI3X5

- Fabric fits smoothly across the framework and stays in place once the frame has collapsed
- Lightweight Hop-up system that is quick and easy to set up
- Single-sided as standard with yellow locking arms

Visible graphic area including ends (approx.):
3x2 - 2262 (h) x 2222 (w) mm
3x3 - 2262 (h) x 2960 (w) mm
3x4 - 2262 (h) x 3698 (w) mm
3x5 - 2262 (h) x 4436 (w) mm

Total hardware dimensions (approx.):
2260 (h) x
1525/2260/2995/3730 (w) x 295 (d) mm

Recommend optional feet for stability, See page 131

Wheeled bag included

Powerspot 1000 - PS1000

LED light PS1060s also available. For all light options see page 128. Fitting kit code: HUILF required when using any lights.

Hop-up Counta

HU301-001-C

- Quick and easy to assemble with single wrap-around fabric graphic
- Tool free assembly
- Single shelf and carry bag included

Visible graphic area including ends (approx.):

Total hardware dimensions (approx.):
1020 (h) x 1065 (w) x 400 (d) mm

SEG* Fabric Counter

PUC21C-SEG

- Display counter with thermoformed top in choice of six colours
- Two shelves for storage
- Optional fabric graphic wrap with silicone edging that fits easily into the channel

Visible graphic area (approx.):
937 (h) x 2340 (w) mm

Total hardware dimensions (approx.):
985 (h) x 840 (w) x 360 (d) mm

*SEG: Silicone Edged Gasket

Fitting graphics into SEG channel

Pop-up systems are a cost-effective and efficient way to create a range of display stands for exhibitions and presentations.

Create straight or curved panels, add towers, shelving and cupboards, complete with lighting and counters for a polished look at a great price.

With the clever Pop-up frame system using Neo magnetic locking arms, your stand can be assembled in minutes, snap graphics into place very quickly for a great looking stand.

Use optional graphic cases to store and transport your frame and graphics, you can even convert some cases into a counter with a PVC or fabric graphic wrap to use whilst on the stand.

3D designservice

Using the latest CAD software technology, our experienced 3D design team will work with you to design and then render your exhibition display stand so you can view before you buy. Ask your dealer for details.

Embrace is a new SEG Pop-up system with push-fit seamless fabric graphics which hug a collapsible lightweight frame. This gives it a sharp and crisp image – a desired look!

Embrace kits

NEW

3x1 EMB-1X3FGE-S / 3x2 EMB-2X3FGE-S
3x3 EMB-3X3FGE-S / 3x4 EMB-4X3FGE-S

- Lightweight, simple assembly, anodised straight silver frame
- Stabiliser feet on all frames three quads high
- Perimeter channel bars connect to frame and hold push-fit fabric graphic
- Crisp, push-fit fabric graphic creates clean, straight edges; comes with front or fully fitted graphic (with end caps)
- Optional end caps available
- Fitting on top hubs for lights to slide into
- Rolling carry bag for most units

Easy push-fit fabric graphics go into channel

Assembly is simple;
Pop-up the frame, attach the channel for the graphics and then push the graphic beading into said channel.

A sophisticated display in minutes!

Channel bars for insertion of fabric graphics easily connect and slide onto collapsible frame

Easy snap arms

Depth with stabilising feet 735 (d) mm

MODULAR EXHIBITION DISPLAYS

Portable, Engage, Reuse

Exhibition display solutions using a range of different materials to create different looks and textures.

Formulate, Vector, Linear and Arena offer standard kits that can be assembled quickly and easily with your own graphics.

Formulate… where Form meets Function

Formulate is a range of standard structures that are manufactured from strong, yet lightweight, tubular aluminium which is then dressed with a tensioned fabric graphic.

Stretching a tough fabric graphic over the Formulate structure changes it from a simple frame to an elegant, engaging form, suitable for various situations and applications.

The Formulate range consists of fabric displays, available in various widths and configurations; shaped counters, impressive retail and exhibition structures, hanging structures and a multitude of accessories.

Lightweight, impressive display in two easy steps.

Formulate fabric displays are aluminium structures with textile fabric graphic socks that wrap snugly around each frame.

1
Push tubes together following the numbers (start at number 1).

Depress the button making sure tubes click together to build the frame

2
Slide fabric graphic over frame, secure with heavy duty zip, and add feet for stability.

Completed structure

Here's why **Formulate is** proving so popular

Numbered tubes and bungee cord make for easy assembly

o Each structure is manufactured from lightweight but strong 32mm diameter aluminium framework making the kit easily portable.

o Each of the connecting frame sections are labelled with matching numbers and have a bungee cord inside, meaning that it is much easier to assemble and saves time compared with other types of display equipment.

o The elasticity within the fabric makes the graphics extremely durable and long lasting giving a great return on investment.

o Attaching the graphics is simple! Each graphic slides effortlessly over the framework and zips closed.

o Kits pack away into a small carry bag making them convenient to transport and store.

o Graphics are easy to care for. After use, zip closed, fold up and place into the bag. If the graphics get dirty during use they can be washed.

Vector Lite

Vector Lite is the latest innovation in exhibition stand design and build. Simple in functionality and sleek in design, this range is perfect for creating exciting and easy to build exhibition stands.

Vector Lite

- Easy to assemble with minimum tools required
- A range of 40mm thick aluminium panels, straight and curved, to create different display configurations
- Complete your display with seamless graphics single or double-sided
- This clever system can accept PVC vinyl, textile fabric or foam board graphics using just one versatile profile system

Vector Lite
VL-STAND-SC1
Kit 1

Vector Lite
VL-STAND-S12
Kit 2

Build Vector Lite

1. Push corner cleats together, tighten with allen keys

2. To make larger frames, push joiners together, lock in place with grub screws

3. Join frames side-by-side; attach joining hook into grooved frame edge, slot frames together, secure using grub screws

4a. Add feet for stability

4b. Slot together frame posts to create a corner

5. Attach frame to post using joining hooks

6. Stacking two frames; slide in joining brace, tighten grub screw with allen key, align top frame to base frame*

*Stacking option only available for 1000mm frames. Stack no higher than two in total.

Kit 3

PANEL KITS

Adaptable, Reconfigurable, Practical

Panel kits are a favourite display method, ideal for any training environment.

They are lightweight and portable with the added benefit of your graphics remaining in place. Choose from a varied range of panel kits to suit your requirement.

Baseline Range
Panel Kits

Baseline Panel Kit range

Baseline Panel Kits are lightweight and easy to transport even with graphics in situ.

There is a choice of Baseline, Baseline Plus with 25mm thick panels and Baseline Aluminium.

All panels are finished in loop nylon fabric and available in a wide choice of colours. Ideal for any training environment or display solution.

- Very popular hinged folding panel kits
- Quick and easy to assemble
- Choice of panel kits, junior and senior tabletop kits, jumbo panels and wheeled panel screens

Optional lighting available.

For full range see pages 128 - 129

Baseline Aluminium 7 Panel Folding Kit

Baseline 6 Panel Folding Kit

Carry bag

Powerspot 50
PS050

Baseline 8 Panel Folding Kit

Please note: We guarantee panels for use with hook and loop fasteners sold by us, which are specified as fit for purpose. We cannot guarantee panels against damage when other brands of hook and loop are used as they may have stronger hook adhesion, which carries the risk of damage and de-lamination to the panel fabric.

Baseline Junior and Senior Tabletop Kits

Junior kit - KK102/KK102A*
Senior kit - KK103/KK103A*
*A denotes aluminium trim

Baseline Tabletop Folding Kits are lightweight and easy to transport, even with graphics in situ.

Panels are finished in nylon fabric and are available in a wide choice of colours.

- Choice of standard or luxury foam backed loop nylon fabrics
- Choice of black or grey frames
- Dry-wipe white board option also available

Senior Kit

Carry bag

Junior Kit

Baseline Plus Panel Screens (Wheeled)

These panel systems are an ideal divider or display panel solution. With hinges and castors they are easily placed wherever required with a multiple choice of positions.

For a choice of fabric colour options see page 133

7 Panel Kit

Baseline Plus and Aluminium Jumbo Panels

These Jumbo Panels are ideal for back walls and screens adding a degree of privacy with their 1.8m high panels.

PORTABLE COUNTERS

Choose from a wide range of portable counters that are available for almost any situation or occasion.

Easy to assemble and extremely versatile with many able to support graphic wraps. Portable counters are the perfect way to welcome your guests.

V Counter
Portable Counters

Robust, stylish counter or workstation with integral shelving and lockable storage.

V Counter is available in two configurations - standard and deluxe with five finishes, you can also customise with an acrylic front panel using your own design.

Versatile and stylish counter in two configurations

V Counter
PK30

- Two top shapes available, Keystone and Elipse
- Unit available in black, white, birch, walnut or silver finish
- Use optional fascia kit to customise with your own printed design
- No tool assembly and packs flat for easy storage and transportation
- Optional wheeled carry case AC347A-W

Total hardware dimensions (approx.):
Elipse: 1020 (h) x 950 (w) x 520 (d) mm
Keystone: 1020 (h) x 900 (w) x 550 (d) mm

Deluxe option includes integral shelf and lockable door. Shown in walnut (above) and beech (left) finishes

Optional flush mounted iPad holder available, see page 127

LCD monitor and iPad not included

Standard option with open back. Shown in silver (above) and beech (left) finishes

Counter shown in a white finish

Counter shown with Elipse top and optional extra flush mounted iPad holder*. Shown in a black finish

*iPad not included

Counter shown with Keystone top and acrylic fascia panel. Shown in the beech finish

Physique range

Physique offers the largest range of flat pack counters for portable marketing. Physique is available in two specifications to give the same end look - one with fabric and one with graphic. All standard Physique come with a standard foot; an optional locking castor is available at an extra cost. We are able to manufacture any counter to your own specification.

MDF Freestyle – Constructed using MDF tambour wraps and finished with a textile fabric covering. These counters have a load bearing weight of up to 75kg.

Physique pole graphic – Constructed with a unique twist and lock aluminium pole system. Once the poles are in place they allow the application of your graphic direct to the unit. There are two exceptions to Physique in the counter range:

Luna which is a low cost lightweight counter option using a plastic tambour wrap – see page 106.

Physique Tube Lite Available in six standard shapes with 500/550 micron thickness wrap to give a lightweight support – see page 109.

Optional iPad holders available for most counters.

Products come with a bag where marked. We can supply bags for all products as an optional extra.

Our furniture tops and bases are constructed from thermoformed MDF in a choice of six finishes and can have optional UV printing on any shaped tabletop.

| Silver | Black | White | Loire Oak | Birch | Walnut - while stocks last |

Physique Freestyle is constructed using MDF tambour wraps, finished in a choice of fabric covering (load bearing up to 75Kg).

Physique MDF Freestyle

Choose from a choice of smooth and luxury foamed back loop nylon coloured fabric options, see page 133 for details.

- 16mm diam. x 30mm
- Suitable for substrates up to 7mm thick
- Available in rail or screw fixing options

Compact variable cable fixing
PO107 (rail fixing) / PO108 (screw fixing)

- 16mm diam. x 25mm, 180° variable fixing
- Choice or rail fix or screw fix options
- Cannot be used with PO110 cable kit

Shelf support
PO111

- Suitable for shelf substrates 3mm thick min.
- 16mm diam. x 8mm
- Requires a 9mm diam. aperture in the substrate

Insert rail fixing
PO115

- Suitable for PO109 Strata Cable Kits and Stand-off components

Panel Supports
PO113/PO112

- Suitable for 4mm and 7mm thick substrates:
- 4mm - 10mm diam. x 15.5mm
- 7mm - 16mm diam. x 20.5mm

PO112

Aluminium Rail Screw Fixing
PR102

- Fix to ceiling or walls – cable fixings slot in and screw in to place
- Available to purchase in one meter lengths only
- Complete with moulded end caps
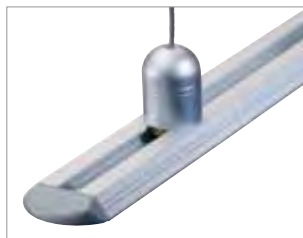

Floor to Ceiling Fixing Cable
PO110

- 4m x 1.5mm Strata adjustable cable kit
- Supplied with screw
- Not suitable for compact variable fixings

Insert for Screw Fixing
PO116

- Suitable for PO109 Strata Cable Kits and Stand-off components

Rotating Edge Stand-offs
PO119/PO120

- Edge stand-offs eliminate the need for an aperture in the substrate
- Suitable for 2mm (min.) to 10mm thick (max.) substrates in rail or screw options
- Choice of two sizes: 34mm x 16mm diam. and 34mm x 25mm diam. with distance from wall or ceiling 18.5mm approx.

PO120-R (rail)
PO120-S (screw)

PO119-R (rail)
PO119-S (screw)
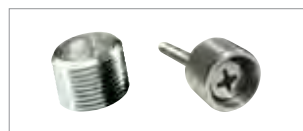

Cable & Banner Poster Rail
PO206/PO210

- Kit includes 2 x 4m cables and 1 pair of poles
- Available in 600 or 1000mm widths
- Suitable for a variety of looped graphics

Cable kits can also be fitted to Linear frames

Banner poster rails

SUITABLE FOR RETAIL

ONE YEAR

Trojan
SP-TRO

- Free-standing portable and linkable information unit
- Hollow base can be weighted with water or sand for stability
- Durable and weatherproof suitable for use indoors as well as outside
- Can also be linked together to form a barrier using the optional extra linking chain (supplied in 1 metre lengths)
- Supplied flat-packed in three plastic pieces

Visible graphic area (approx.):
380 (h) x 330 (w) mm

Total hardware dimensions (approx.):
1200 (h) X 380 (w) x 380 (d) mm

Durable and weatherproof, suitable for use indoors or out!

Linkable posts

Linking chain: SP-TRO-LC

Twista Lite Poster Rail
TWLHR-500 / 600 / 800 / 850 / 900 / 1000 / 1200 / 1500

- Easy to use 'snap action' poster rail
- Smart modern design that can be wall or ceiling mounted, with aluminium rail and grey plastic end caps and hooks
- For use with a range of media including, paper, card, PVC and fabric up to 300 microns
- Custom sizes available on request

Very cost-effective snap-action solution
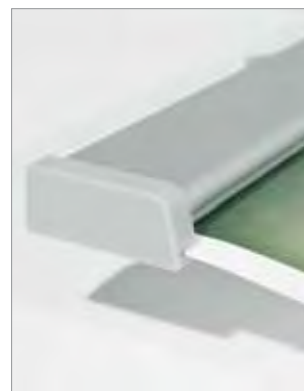

Trappa Rail

- Simple 'snap-action' rail in aluminium with anodised silver finish
- Can be wall or ceiling mounted and suitable for substrates up to 300 microns thick
- Rails are sold in pairs in a wide range of sizes and come complete with black or grey end caps and moulded hooks

Rail profile 13 (h) x 25 (w) mm

Open rail, insert graphics, clamp shut

Poster size	Code	Rail size	Code

Finish by inserting end covers

TABLET HOLDERS, GRAPHIC PODS AND LIGHT BOXES
Visual, Vibrant, Informative

Display audio visual information using a range of tablet holders from counter, flush mounted, free-standing and 360° versions.

Create an impact with either a graphic light box or pod. Illuminate your graphic with LED lighting or use the pod as a visual counter or wall mounted graphic.

Multi-functional Mobile LCD/LED/ Plasma Stand

NEW

LN250

- Ideal for using on exhibition stands, meeting rooms, restaurants or even at home
- Capable of mounting 40"- 60" LCD, LED or plasma screens
- Lightweight mobile stand comes in black with two heavy duty poles for height adjusting from 1030mm to 1530mm for optimum viewing
- Comes with standard accessories; camera tray and AV accessories shelf
- Smooth rolling braked castors for easy transportation
- Integrated cable management system inside pole uprights

LCD/LED/Plasma screen not included
Video/AV equipment not included
Maximum screen mount load 45.5kg
Maximum AV shelf load 4.5kg
Maximum video tray load 4.5kg

Total hardware dimensions (approx.):
1000-1500* (h) x 850 (w) x 730 (d) mm
*Height adjustable, measurements are from floor to centre of screen.

Camera tray is adjustable in height and removable

Height adjustable screen mount for optimum viewing

Height adjustable AV shelf

iPad Holder 360°

IPAD-360B/S/W

- Tilt and rotate your iPad 360°
- Can be mounted onto a desk top, wall or a Linear post
- Comes complete with all parts and fixing kit
- Available in black, silver and white surround
- Suitable for iPad, 2, 3, 4 and iPad Air 1,2
- Not suitable for iPad mini or iPad Pro
- iPads not included

Design iPad Holder

Frame only - IPAD-CHU-B/S/W
With 360 mount - IPAD-SH-360B/S/W

- Design shaped iPad holder to be used in conjunction with 360° mount (not included)
- Secure housing unit
- Available in black, silver or white
- Accepts iPad 1, 2, 3, 4 and Air 1, 2
- Not suitable for iPad mini or iPad Pro
- iPads not included

Sleek rounded corners, available in black, white or silver

Tablet Holders

Telescopic iPad Holder*
IPS-002-B

- Sleek and stylish iPad holder
- Suitable for iPad 2, 3, 4 and iPad Air
- Large fan shaped steel base
- Cable management system
- Can be positioned landscape or portrait
- Height adjustable tube
- Access hole for home button
- Available in black
- Secure housing with key entry
- 5.7kg weight
- For extra security the base can be screwed or bolted to the floor or to a stand

Total hardware dimensions (approx.):
Portrait:
780-1225 (h) x 440 (w) x 330 (d) mm

Tilting

Lockable

Design iPad Holder Post*
IPAD-DES-B/S/W

- iPad post with optional literature holder and shelf accessories
- Leaflet holder available in three sizes DL, A5 and A4
- Choose from black, silver or white finish

Total hardware dimensions (approx.):
1100 (post height)
x 460 (base diam) mm

LIFE TIME

Free-standing iPad Holder*
IPS-001-B/S/W

- Secure housing with security screws and Allen key
- Can be positioned portrait or landscape
- Available in three colours black, silver or white
- For extra security the base can be bolted or screwed to the floor or to a stand

Total hardware dimensions (approx.):
Landscape: 1045 (h) x 360 (base diam.) mm
Portrait 1060 (h) x 360 (base diam.) mm

Compatible with:
iPad 1,2,3, 4 and iPad Air
(Not compatible with iPad Pro)

Rotates

*Please note:
  All iPads and tablets are not included and not available to purchase.

Free-standing Tablet Holder*
TS-001-W / TS-001-B

- Easy to assemble tablet holder, can be used landscape or portrait.
- Stands 1135mm high landscape or 1090mm portrait
- White plastic housing features lock for added security
- Complete with bolts so you can fix to the floor

Total hardware dimensions (approx.):
Portrait: 1135 (h) x 367 (w) x 275 (d) mm
Landscape: 1090 (h) x 367 (w) x 275 (d) mm

Compatible with:
iPad 1,2,3,4, Air, Samsung Tab 3 10.1,
Samsung Galaxy Note 10.1(2014 model),
ASUS Memo Pad 10.1, Samsung Tab Pro 10.1
and Sony Experia 22

Can be used landscape or portrait

*Available for all iPads except mini and Ipad Pro

Reflecta Lite LED
ML950

- Free-standing, double-sided LED lightbox
- Available in silver
- Packs flat for transit and storage
- Simple to assemble and change graphics*
- Two meter long mains lead and plug included
- Recommended graphic thickness 200 micron or equivalent*

Visible graphic area (approx.):
1285 (h) x 290 (w) mm graphic panel

Total hardware dimensions (approx.):
1330 (h) x 490 (w) x 295 (d) mm

*Graphics are optional extra

LED lightbox, simple to assemble, and extra strong for stability
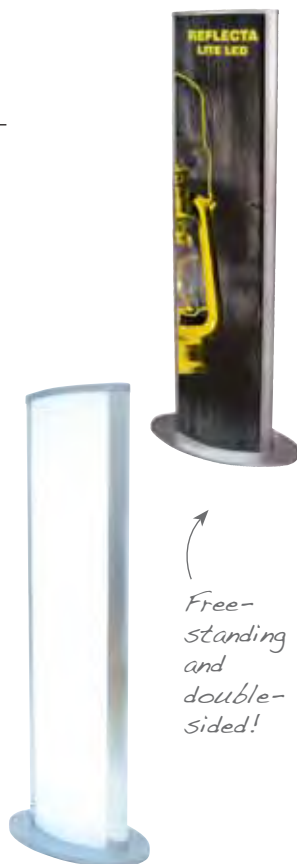

Free-standing and double-sided!

Slim and Standard Linear Column

Standard Frame only - LNC-STFO
Standard Lightbox - LNC-STLB
Slim Frame only - LNC-SLFO
Slim Lightbox - LNC-SLLB
Optional iPad holder 360˚- IPAD-360B/S/W

- Neat streamlined pods with optional iPad holder 360˚ for multimedia solutions
- Slim and Standard sized counters both have the option of printed graphic panels
- Lightbox version comes with white panels, optional printing available
- Internal LED lighting options of white or RGB

Visible graphic area (approx.):
Standard -
970 (h) x 525 (w) mm graphic panel
Slim -
970 (h) x 280 (w) mm graphic panel

Total hardware dimensions (approx.):
Standard -
1010 (h) x 640 (w) x 325 (d) mm
Slim -
1010 (h) x 380 (w) x 245 (d) mm

Internal LED lighting options

Reflecta Trappa Graphic Pod† or Lightbox

- Free-standing double-sided lightbox or graphic pod, with elegant looks and ease of assembly-ideal for retail displays
- Available with Trappa style posts with easy to use 'snap action' aluminium rails to support a range of media types
- Will support Linear accessories
- Two sizes available 570 or 1000mm
- Top and base available in a choice of loire oak, silver, black, white or birch finish

† Please note:
  Graphic Pods have a five year guarantee

Total hardware dimensions (approx.):

ACCESSORIES

Enhance, Improve, Complement

Don't forget to complete your display with an impressive range of bags, cases and lighting solutions.

We have a bags, cases and lights for just about any product, why not transform your case into a portable counter offering multiple options from just one product.

The Oyster Case is a spacious sturdy 'clam style' transportation case which converts quickly into a stylish and surprisingly extra large sized counter with integrated shelves.

Oyster Case

AC507-C case
G-OYS-PV with graphic PVC wrap

- Large wrap-around folding tabletop and integral locking nuts to secure quickly into place
- Two detachable shelves for storage
- Design your own graphics on the PVC wrap (optional extra)
- Store your 3x5 Pop-up display, wrap, plus tabletop and shelves inside the Oyster case and wheel away.

Visible graphic area (approx.):
920 (h) x 1745 (w) mm

Total hardware dimensions (approx.):
Open: 1020 (h) x 1430 (w) x 595 (d) mm
Closed: 1010 (h) x 660 (w) x 430 (d) mm

The Oyster case transforms into a counter with two detachable shelves

Carry handle for easy transportation

Cases and Bags
Accessories

Elipse Plus

AC337 case
CO337-C with tabletop
AC337-002 - Full fabric wrap

- Manufactured from tough moulded polyethylene (MDPE) that can carry one 3x4 curved or straight Pop-up frame with graphic panels and mag bars
- Four integrated A4 literature holders to the front
- With wheels and handle for easy transportation
- Removable internal divider included to protect graphics
- Folding birch tabletop and graphic wrap to convert case into a counter are available as optional extras. Tabletop also comes in black, white or silver on request

Visible graphic area (approx.):
790 (h) x 1610 (w) mm

Total hardware dimensions (approx.):
950 (h) x 395 (w) x 595 (d) mm

Unique built-in four pocket leaflet dispenser at front

Tabletop as optional extra in birch, can also be supplied in black, white or silver on request.

Zeus Case

AC338 case / CO203Z Fabric wrap
CO401-C - Tabletop
CO401-IPW/IPB/IPS Tabletop with iPad holder

- Wheeled lockable Pop-up case designed for safe transportation of Pop-up frame, fixings and graphics, manufactured from tough moulded polyethylene (MDPE).
- Will accept one 3x5 curved or straight Pop-up frame with graphic panels and mag bars, with internal divider to protect graphics included
- Optional folding tabletop and graphic wrap to convert case into a counter
- Tabletop supplied in birch as standard but other thermoformed finishes are available on request

Visible graphic area (approx.):
785 (h) x 1775 (w) mm

Total hardware dimensions (approx.):
990 (h) x 640 (w) x 410 (w) mm

Optional iPad tabletop holder also available in black or silver - see page 127

Wheeled Moulded Linear Case

AC506

- Large, wheeled carry case for transporting Linear extrusion and kits
- Stackable for easy storage, complete with support straps for extra security
- Optional three tier inserts configurable to store different Linear extrusions

Total hardware dimensions (approx.):
1300 (h) x 740 (w) x 360 (d) mm

Atlas Linking Graphic Cases

AC372

- Wheeled lockable case
- Manufactured from tough moulded polyethylene (MDPE)
- Link cases together to form unique stylish counter shapes using optional extra linking kit
- Will accept one 3x5 curved or straight Pop-up frame with graphic panels and mag bars
- Includes internal divider to protect graphics
- Ability to house banners up to 850mm wide
- Graphic PVC or fabric wraps and hinged beech tabletop in different shapes available as optional extras

Can house 850mm wide banners

Optional extra Atlas case linking kit FX632

Optional extra flush mounted iPad holder

Optional different shaped tabletops available for when cases are linked to form shapes -
Left CO372-LL,
Middle CO372-ML,
Right CO372-RL

Stealth Case

Case: AC433
Case wrap: CO333Z
Tabletop: CO332

- Versatile and adaptable case to house components and graphics for the Stealth banner system (See pages 24 - 25)
- Separate compartments securely hold two Stealth units with graphics and lights
- Optional folding tabletop to create a counter
- Optional fabric wrap will personalise your counter

Visible graphic area (approx.):
800 (h) x 1600 (w) mm

Total hardware dimensions (approx.):
970 (h) x 520 (w) x 440 (d) mm

Transport case, available options include case wrap and folding tabletop to convert into a handy counter

Suitable for storing two Stealth units, a flexible joining panel and case wrap graphic

Leonardo

AC340

- Strong, and durable, wheeled Pop-up case with wheels and handle for safe transportation of graphics
- Manufactured from tough moulded polyethylene (MDPE). Join two cases together to create an oval counter
- Optional fabric wrap and tabletop convert the case into an oval counter available in birch, black, silver or white thermoformed finishes

Visible graphic area (approx.):
702 (h) x 1270 (w) mm

Total hardware dimensions (approx.):
Internal: 850 (h) x 355 (w) x 280 (d) mm

Join two cases to form a counter

Graphic Case 900

AC333

- Manufactured from tough moulded polyethylene that enables you to transport display graphics up to 900mm wide
- Holds up to eight graphic drops, ideal for rolled banners and Pop-up graphics
- With handle and wheels for easy use

Visible graphic area (approx.):
795 (h) x 1585 (w) mm

Total hardware dimensions (approx.):
970 (h) x 520 (w) x 440 (d) mm

Graphic Case 1200

AC332

- Manufactured from tough moulded polyethylene and enables you to transport display graphics up to 1200mm wide
- Holds up to eight graphic drops, ideal for rolled banners and Pop-up graphics
- Complete with handle and wheels for easy use

Visible graphic area (approx.):
1065 (h) x 1585 (w) mm

Total hardware dimensions (approx.):
1250 (h) x 520 (w) x 440 (d) mm

Graphic Drums

AC305/306/365/366

- Choose from a range of sizes to enable you to transport graphics safely and securely
- Manufactured from tough yet lightweight polyethylene

Total hardware dimensions (approx.):
AC305 - 850 (h) x 400 (diam.) mm
AC306 - 850 (h) x 300 (diam.) mm
AC365 - 1020 (h) x 400 (diam.) mm
AC366 - 1020 (h) x 300 (diam.) mm

Pop-Up Drum

AC304

- Economical wheeled Pop-up drum case with handles and wheels for safe transportation of Pop-up and graphics
- Foam lined base for added protection
- Suitable for up to a 3x4 curved or straight Pop-up with graphics
- Will also carry a maximum of 10 regular height Pop-up graphic panels (no frame)

Total hardware dimensions (approx.):
860 (h) x 440 (w) x 390 (d) mm

Carry Bags
Standard or Custom Made

- Large range of bags to carry or store panel systems, banners, portable furniture and literature racks
- Standard sizes of bags or custom made to order
- Wheels and extra padding available as optional extras

Base Bag
AB108

- Lightweight fabric bag
- Can hold up to four 300mm diam. flag bases
- Complete with carry handles

Total hardware dimensions (approx.):
320 (h) x 320 (w) x 60 (d) mm

Graphic Banner Tube
AB120

- Lightweight fabric bag with a choice of cardboard tubes
- Ideal for transporting tension banners or rolled graphics, as well as protecting and extending the longevity of your banner and graphics
- Choice of four heights, 850, 1050, 1250 or 1550mm, available with or without protective inner tube
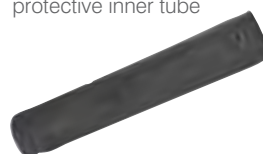

Pop-up Frame Fabric Bag
AB105

- Protect your Pop-up frame by transporting or storing in a lightweight carry bag
- Takes up to 4x3 frame size
- Carry handle on top of bag
- For Pop-up systems see pages 59-65

Padded Lighting Bag
AB101

- Suitable for transporting two of the following lights; PS1000, PS950 halogen lights (page 128), Powerspot 1060S LED Floodlight (page130), LED Spotlight, floodlight and exhibition (page129)
- Zipped with carry handles

Total hardware dimensions (approx.):
570 (h) x 180 (w) x 120 (d) mm

Mag Bar Bag
AB104

- Keeps your Pop-up mag bars safe and clean
- Capacity to house up to 21 mag bars
- Complete with carry handle

Total hardware dimensions (approx.):
735 (h) x 110 (w) x 70 (d) mm

Polypropylene Cases

- Cost-effective, strong polypropylene, standard or custom size cases.
- Can store or transport graphics, panels, Pop-ups, and literature stands
- Optional extras; wheels and extra padding are available on some cases

Adjustable Graphics Tube
GBT-001

- Lightweight graphics drum with shoulder strap for easy transportation
- Telescopic body adjusts to fit a range of graphic sizes
- Manufactured from lightweight polypropylene with a twist and lock lid,
- Ideal for protecting and extending the longevity of your banner graphics

Total hardware dimensions (approx.):
Telescopic body, extendable from 770 (h) to a maximum of 1250 (h) mm

Flush Mounted Tabletop iPad Holder
IPDM-W/S/B

Available to use on a wide variety of tabletops.

See counter section on page 103

- Suitable for use on a variety of tabletops and counter units and available in black, white or silver
- Minimum area in which the holder can fit is 450mm diam.
- Price of unit includes housing and components pre-fitted into relevant counter top

  Tabletop, counter and iPad not included.

  Must be used purchased in conjunction with table top
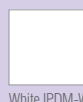

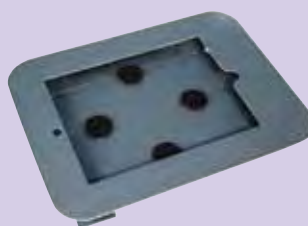

Silver IPDM-S   Black IPDM-B   White IPDM-W

Lighting
Accessories
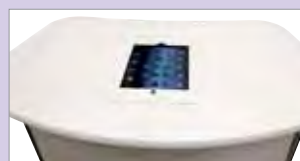

Powerspot 50
PS050

- 240v 60 watt mains spotlight for use with panel systems
- 3m power lead with UK or Euro plug, replacement lamps also available
- Available in silver with clamp fixing

PS050

Powerspot 800
PS800

- 50 watt mains floodlight offering 5500k of warm and inviting white glow
- Low power consumption with 20,000 hours of use (approximately)
- Anodised silver finish with integral bulldog clip specifically designed for banner stand poles

PS800

Powerspot 950
PS950

- 150 watt mains halogen floodlight, offering 5500k of warm inviting white light
- Available in black finish
- 3m power lead with UK or Euro plug
- Pop-up only, not suitable for Pop-up Tower

PS950

Powerspot 1000*
PS1000

- 150 watt mains halogen floodlight for use with Pop-up systems and Linear systems**
- Available in black or silver, lamp is protected by a glass barrier for safety
- 250mm straight arm with adjustable head, Universal fitting and 3m power lead with UK or Euro plug

PS1000

Powerspot 1200
PS1200

- 20 watt fluorescent light suitable for illuminating Pop-up end panels or for back lighting balloon panels
- Simply clip on to attach, ultra slim design, up to six lights may be linked together using optional connecting lead US601B

PS1200

Universal Fitting Kit
US901-C

- Universal fitting kit, suitable for PS1000 light
- Enables lights to be fitted to banners, Pop-ups, modular panel systems and Arena 4 Gantry

*On ordering please specify application as specific fittings may be required

**Linear systems require additional fitting (US-LINEAR)

LED lights use less energy, run cooler and last longer; reducing your electrical power requirements at exhibitions and shows.

LED Lighting

- Bespoke design specifically for display and exhibition environments
- Greater efficiency means lower power consumption and higher light output
- Smaller and lighter than existing LED arm lights
- Safety and CE approved

LED Spot Light
LED-SPOT-ARM-B

- Compact stand-alone LED light, specifically designed for banners
- Universal fitting for banners, panels, Pop-up and modular systems
- Approx. 500 Lumen at 5W

Measuring light – watts and lumens explained

Traditionally we have measured light in watts, however watts are a measurement of power and not light output. With the emergence of new and more efficient LED technology, lumens (lm) are the preferred measurement of light. One lumen is equivalent to the light emitted from one wax candle. For example; a traditional 40 watt light bulb has a lumen output of approximately 450lm. Our mix and match range of LED lights below have a lumen of 1500 but only use 12 watts of energy. They still give off bright white light, but use only a fraction of the energy compared to traditional halogen lights.

LED mix and match trio range

Linkable LED's – to be used in conjunction with each another.
Ideal for Pop-up and modular displays to highlight areas that need emphasis.

LED Floodlight
LED-FLOOD-ARM-B

- Link up to five lights from one transformer
- Light head is approx. half the size of the Powerspot 1060 LED Floodlight (page 130)
- Specifically designed for lighting larger graphic areas Modular / Pop-up
- Universal fitting for banners, panels, Pop-up and modular
- Approx. 1200 Lumen at 12W

LED Strip Light
LED-STRIP-ARM-B

- Link up to five lights from one transformer
- Specifically designed to have a wide beam pattern to highlight specific graphic areas – think picture light!
- Universal fitting for banners, panels, Pop-up and modular
- Approx. 1200 Lumen at 12W

LED Exhibition Light
LED-EXHIB-ARM-B

- Link up to five lights from one transformer
- Slim aluminium design
- Specifically designed to complement Vector and Linear stands
- Fitting for Linear and Vector only
- Approx. 1200 Lumen at 12W

NEW · ONE YEAR

LED Flood Lighting
LED-FLOOD-40W / LED-FLOOD-40W-RGB

- 85-265 voltage, 42 watt LED
- Flood light (equivalent to 400 watt halogen)
- Available in white and RGB
- White version projects cool white light
- Angles to 120°
- For indoor use only

Total hardware dimensions (approx.):
188 (h) x 240 (w) x 130 (d) mm

Mini LED Floodlight
LED-FLOOD-10W / LED-FLOOD-10W-RGB

- 10 watt LED flood light
- Available in white and RGB
- White version projects cool white light
- Remote control only with RGB version
- Angles to 120°
- For indoor use only

Total hardware dimensions (approx.):
86 (h) x 114 (w) x 101 (d) mm

Small but mighty LED flood lights

Colour Blast Accent LED
LED-CW-BLAST / LED-RGB-BLAST

- 85-265 voltage, 13 watt LED blast light
- Two projecting led lights
- Available in cool white or RGB spectrum flashing pattern
- Face plate is flush with base and angles to 60°
- For indoor use only

Total hardware dimensions (approx.):
178 x 178 (diam.) mm

Powerspot 1060 LED Floodlight*
PS1060S

- 20 watt mains floodlight
- Offers 5500k of cool white glow
- Low power consumption with 20,000 hours of use approx.
- Anodised silver finish
- Universal fitting available for panel displays, Pop-ups and Linear systems

*On ordering, please specify application as specific fittings may be required.

Specifications

Custom capabilities guide

There are many items in the range that can be customised or made-to-order, providing an unrivalled level of flexibility. These include:

Linear, Linear Vector and Formulate modular aluminium frame systems - you can use 'elements' to configure your own display design or we can work from a custom brief.

Banner stands - Original+ can be manufactured to custom widths.

Pop-ups - can be built to custom configurations based on standard 'quads' as building blocks.

Fabric panels for banners and Pop-ups - simply select your fabric and place your order.

Physique portable counters - manufactured to custom designs and sizes with a range of finishes to choose from for the side panels, tops and bases. You can even have custom logos engraved, thermoformed into wooden tops and UV printed.

Carry bags - canvas bags can be manufactured to custom specifications.

Panel kits - standard panels in custom configurations.

Panel and Pole - standard panels in custom configurations and custom sized panels.

Poster frames and rails - manufactured to custom sizes.

Promoter units and lightboxes - manufactured to custom sizes.

Our product range

We are dedicated to delivering the widest choice of products from cost effective to premium quality.

We promise to continuously search for new and pioneering ideas bringing innovation and excitement to our complete range of portable display products.

Our products cover a broad range of needs from simple cost effective display solutions to more comprehensive and specialist displays for both one off and semi-permanent use.

Guarantee

ONE YEAR **FIVE** YEAR **LIFE** TIME

All products are covered by a manufacturer's guarantee against component failure and defects. Our premium banner range is covered by a lifetime guarantee, the rest of our range is covered by a five year guarantee with the exception of our illuminated, Basics and Outdoor products which are covered by a one year guarantee.

We are continually improving and modifying our product range and reserve the right to remove products or vary the specifications without prior notice. All dimensions state height first.
All dimensions, graphic information and any weights quoted are approximate and should be used as a guide only.

We accept no responsibility for variance. E&OE

Design and Patent

Some of the products in our catalogue carry a worldwide Patent, some carry a Design Patent. All of our unique products are designed in the UK / USA and designs are registered.

Due to variations in graphic substrates, graphic thicknesses stated are provided as a guide only. Always check the suitability of your substrate on the display unit before application.
